VDO Autodiagnos Check

June 2019 - Software version 01.10

VDO are pleased to announce the release of the latest software for your VDO Autodiagnos Check service tool.

The new software features user interface improvements, extended vehicle coverage and improved functionality. Apart from the promised OE data model year update, [brake service functions](#) for Volvo and VAG have been extended, as well as the [diesel injector configuration](#) functions for Volvo, Mazda, Renault, Peugeot/Citroen and Dacia. Substantial model year update for [VAG](#), [Renault/Dacia](#), [Peugeot/Citroen](#) [Ford](#) and [Toyota](#) also includes extended service functions.

For a full list of the supported makes and models, please click the application list available on www.autodiagnos.com.
