VDO Autodiagnos Check

August 2019 - Software version 01.11

VDO are pleased to announce the release of the latest software for your VDO Autodiagnos Check service tool.

We're always making changes and improvements to make your tool better for you. For this release, we adapted our schedule and concentrated on solving a bug that caused the handset to reboot under certain conditions.

If you have not yet updated your tool from the June release, take a look at the latest functions, coverage and other benefits your Autodiagnos Check tool can now offer you on the following pages. We're sure you'll agree that it will be highly beneficial for your everyday workshop tasks.

For a full list of the supported makes and models, please click the application list available on www.autodiagnos.com.

Kind regards
Your VDO Team
