VDO Autodiagnos Check

November 2020 - Software version 01.14

VDO are pleased to announce the release of the latest software for your VDO Autodiagnos Check service tool.

The new software features extended vehicle coverage and improved functionality.

Apart from the promised **OE data** model year update for **VAG**, **CBS service functions** for brand new **BMW** models as well as **diesel injector** configuration functions for **Mercedes**. There has been a substantial model year update for **Peugeot/Citroen (PSA)** and **Ford** and **Dacia** include extended service functions.

For a full list of the supported makes and models, please click the application list available on www.autodiagnos.com.
