# VDO Autodiagnos Check

December 2017 - Software version 01.05

VDO are pleased to announce the release of the latest software (version 01.05.02) for your VDO Autodiagnos Check service tool. The new software features a host of convenient upgrades, including OE data and extended coverage.

## Vehicle Manufacturer Data Included

New

VDO are proud to announce that for the first time, the VDO Autodiagnos Check now entails Original Manufacturer data for Volkswagen, Audi, Ford and Mercedes Benz. Thanks to this update, your tool now supports:

- More than 7 million vehicles in Europe
- Over 10,000 new systems
- Over 80,000 new live data items

\* This basic product information provides general information about products which may not (yet) be included in the product portfolio but are basically available. Versions and functionalities can deviate from this general information. All rights for the patent, utility model or design registration are reserved.

Service can be this easy

## New Functions

New coverage has been added for several manufacturers in all 10 of the FastCheck functions. This includes:

- Service Reset
- DPF Regeneration
- Steering Angle Calibration
- Transmission Learned Value Reset
- Turbocharger Learned Values
- Component replacement
- EPB Service Functions
- Engine Service Reset Functions
- Injector programming and many more

For details about the supported makes and models, please check the application list available on [www.autodiagnos.com](http://www.autodiagnos.com).

## Updated Tools and Utilities

Due to the number of changes, the latest VDO Management Console (v1.6.2) needs to be installed prior to updating the handset.

**Note:** Prior to updating the software on your device, please ensure you select the country where the device will be used during the registration process. If the device is updated in a company network, the process may fail and you will have to contact the product support team.

- Print Utility Tool (v1.1.0)  
*(Mandatory for Dec 2017 Software)*
- Log Downloader (v1.2.0)  
*(Mandatory for Dec 2017 Software)*

## Efficient Update Time

The Autodiagnos Check tool has had a significant increase in its data rate. Now with an impressive 2.4GB, the tool is two times faster to update than ever before.

We believe you will be very pleased with the results and look forward to exploring your tool's new features and improvements.

Yours sincerely,

**The VDO Team.**
