VDO Autodiagnos Check

March 2018 - Software version 01.06

VDO are pleased to announce the release of the latest software (version 01.06) for your VDO Autodiagnos Check service tool.

The new software features user interface improvements, extended vehicle coverage and improved functionality. As promised we have added more OE data. OE data for BMW, Ford and Mercedes has been extended.

For details about the supported makes and models, please check the application list available on www.autodiagnos.com
