VDO Autodiagnos Check

July 2018 - Software version 01.07

VDO are pleased to announce the release of the latest software for your VDO Autodiagnos Check service tool.

The new software features user interface improvements, extended vehicle coverage and improved functionality. Apart from the promised OE data model year update, the brake service functions for VAG, Ford, Mercedes, PSA, Jaguar, Land Rover, BMW and MINI have been extended. Now, your Autodiagnos Check supports brake service functions for over 20 manufacturers and EPB is supported on all Jaguar and Land Rover models up to 2017. For a full list of the supported makes and models, please click the application list available on www.autodiagnos.com.
